## 2025 Basics & Beyond: Advancing CIED Knowledge for Clinical Practice and Certification

We invite you to participate in the  
2025 BIOTRONIK AHP education series, focused  
on caring for CIED patients.

This interactive webinar training was developed by the BIOTRONIK Training Department in collaboration with our Chief Medical Officer, David Hayes, M.D. and our Clinical Translation Specialist, Beth Davenport, M.S.N., R.N., C.C.D.S. to take attendees beyond basic device interrogation and programming. This training will cover basic and advanced concepts in CRM, emerging technologies, device troubleshooting and provide you with challenging and relevant case studies.

Whether you are new to your role or an experienced healthcare professional in the cardiac rhythm management specialty, you don't want to miss this great opportunity to build your clinical competencies!

### Moderators:

**David Hayes, M.D.**  
Chief Medical Officer  
BIOTRONIK, Inc.

**Beth Davenport,  
M.S.N., R.N.,  
C.C.D.S.**

Clinical  
Translation  
Specialist  
BIOTRONIK, Inc.

The program is recognized for 1 hour of continuing education credit each session, for a total of 7 hours; California Board of Registered Nursing credit provider CEP17525. These CE credits are recognized for registered nurses. Note: Allied Health Professionals are responsible to confirm CE credit acceptance with their individual licensing board.

There is no charge for this course, but we kindly ask if you cannot attend that you cancel your registration at least 24 hours in advance.
